Unique businesses have specific payment needs. Direct sellers may require a cost-effective means to pay commissions, while wholesalers may need a more efficient way to collect payments from distributors and resellers. The ProPay Payment Network (PPN) covers those needs.

PPN is a suite of services tailored to provide greater flexibility, speedier payment processing and increased savings for a variety of companies. For example, ProPay SpendBack moves funds immediately between ProPay accounts – from distributor accounts to corporate accounts – for product purchases at reduced costs. SplitPay divides payments within the network, with distributors and corporate each automatically receiving their portion of the transaction. PPN simplifies the process by eliminating the gap between recruiting, sales activities, sales force compensation and disbursement of funds.

SPENDBACK[®]

PROPAY SPENDBACK

ProPay SpendBack is essentially a “payment intranet” that lets distributors pay for wholesale orders directly from their ProPay account at significant savings to the wholesaler.

SpendBack can significantly decrease the cost that companies pay on wholesale orders, and it promotes distributor activity by simplifying the wholesale purchase process.

SPENDBACK FEATURES AND BENEFITS

- Reduces corporate transaction costs on wholesale orders
- Simplifies and accelerates the wholesale order process for distributors
- Encourages greater levels of reinvestment on the part of distributors
- Enables rewards programs for corporate purchases

SPLITPAY[®]

PROPAY SPLITPAY

ProPay SplitPay divides payments in multiple ways between distributor and the wholesale organization. It can integrate with distributor websites so they can instantly recognize payments for internet sales and receive transaction proceeds through their ProPay account.

SplitPay helps both wholesalers and distributors get paid faster and eliminates the need to cut expensive checks, wait for commission runs or direct deposits.

SPLITPAY FEATURES AND BENEFITS

- Streamlines payment process
- Increases adoption and utilization of distributor websites
- Processes internet transactions through distributors’ ProPay merchant accounts
- Fully customizable to meet your unique business needs
