

Innovative Payment Solutions Any Way You Do Business.

PROPAY[®]
A TSYS[®] Company

PROTECTPAY[®]

ProtectPay[®] is the powerful, end-to-end encryption and tokenization service from ProPay[®]. By replacing payment card and ACH data with tokens, ProtectPay removes cardholder data from an organization's systems and mitigates risk associated with storing, processing and transmitting sensitive data.

ProtectPay accepts all types of payments and secures sensitive data during one-time and recurring transactions.

PROTECTPAY KEEPS YOUR DATA SAFE AND SECURE.

Minimize Your PCI Obligations

Easily integrates robust payment security without adding extra processing time or steps to the transaction process. No need for multiple methods or points of integration.

Data Storage

Securely houses card information to process real-time and recurring transactions. Also stores multiple payment methods per customer.

Core Competency: Protection of Payment Card Data

ProPay has been certified as PCI DSS compliant since 2004. Learn more about PCI compliance in the Resources section on propay.com and pcisecuritystandards.org.

Experience. Integrity. Innovation.

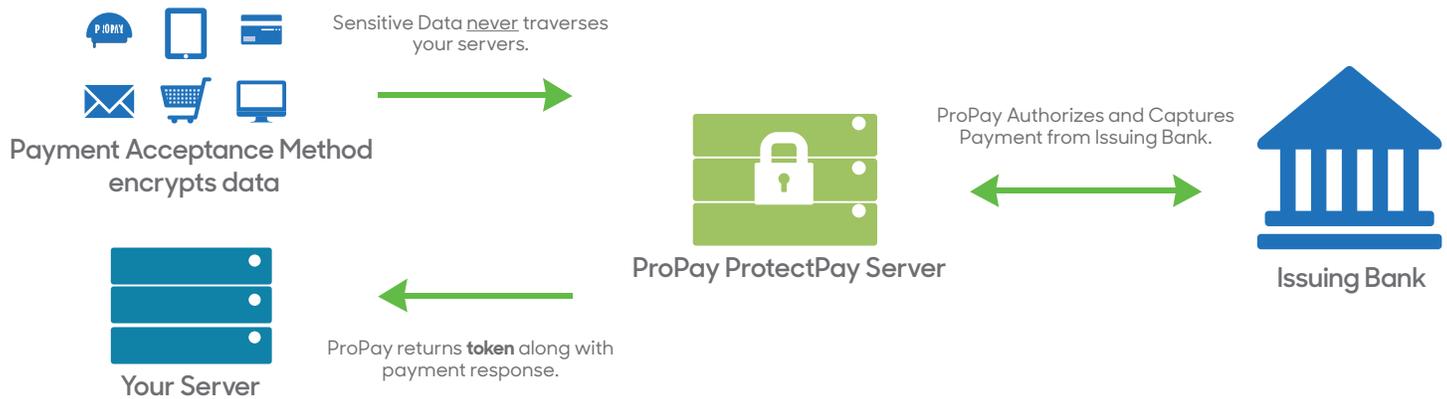

ProPay is backed by payment expert TSYS[®], a global industry leader with 30 years of experience and approximately \$121 billion in processing volume.*

ProtectPay Multi-layered Security Offers:

- Sensitive payment data never passes through your servers
- Flexible, scalable platform
- Integrates easily with your current software
- Encryption from point of entry for optimum security
- Only tokens touch your system which are meaningless to hackers
- Store multiple payment methods per customer

POINT-TO-POINT TOKENIZATION - PCI LEVEL 1

Card Data is sent encrypted directly to ProPay's ProtectPay Servers.

YOUR LONG-TERM BUSINESS PARTNER, NOT SIMPLY YOUR PROCESSOR.

ProPay has decades of experience with API-based payment solutions. We understand how to converge payments with technology. We'll work with you to choose and understand the options that best fit your needs.
