

Global Payment Processing From ProPay

ProPay can be your single source provider for your global payment processing needs

“Global Markets.” Going global continues to provide attractive opportunities for business growth. ProPay is going global too and will be able to help take your business to the markets of the world by enabling you to ACCEPT and MAKE payments in multiple international currencies. Whether you're an established business or a startup getting ready to test the global marketplace, ProPay will enable you to reach new customers in a simple, secure and affordable manner. ProPay can help you in the following ways:

- You will be able to accept payment for your products and services in multiple international currencies.
- You will be able to accept multiple currency and settlement options for quick access to funds and easy reconciliation.
- You can pay your representatives quickly and efficiently with our Commission Payment solution.

In addition to existing and forthcoming flexible global payment options, you can be confident that ProPay solutions are secure. ProtectPay®, ProPay's end-to-end encryption and tokenization solution, is also available to businesses of all sizes. Companies can accept credit, debit and ACH payments without storing, processing or transmitting the data with ProtectPay and significantly reduce their PCI obligations.

PROPAY GLOBAL PAYMENT STRATEGY

Single Source Partner	Simplify the management of international payments and focus your energies and resources on growing your business.
Broad Coverage	For acquiring, alternative payments, commission payments and payment data security on a global basis.
Reduce PCI Compliance	All sensitive cardholder and bank account data would be removed by ProPay and minimize PCI compliance burdens—remove the data, remove the risk®!
Lower Transaction Costs	Tapping in to ProPay's unique and innovative Payment Network could lower transaction costs, energize distributors and improve overall payment data security.
Industry Know How	For years, ProPay has been a respected partner of the DSA. ProPay understands the Direct Selling Industry and was name Partner of the Year on 2003.

Authorize in **150+** currencies
 Settle in **16** currencies
 Plus alternative payments

Accept Global Payments	Make Global Payments	Global Payment Security
<ul style="list-style-type: none"> • Authorize in over 150 currencies • Settle funds in 16 currencies • Real-time currency conversion accesses current exchange rates and calculates price in the requested currency • Alternate payments (direct debit from bank account) in select European countries • Result: Happy Merchants and Happy Customers 	<ul style="list-style-type: none"> • Pay global commissions quickly and efficiently in multiple currencies • Easily transfer funds from a ProPay Commission Account to a personal bank account • Merchants can spend money from their ProPay Commission Account to purchase product from the company • Result: Increase in distributor recruiting, retention and growth 	<ul style="list-style-type: none"> • Secure storage of Customer data using with ProPay—certified PCI DSS compliant for the past several years • Store multiple payment methods including payment cards and ACH • Sensitive payment data is encrypted at the point of entry so the merchant organization never has to store, process or transmit cardholder data • Flexible, scalable platform • Result: Secure data and reduced PCI DSS obligations
