

Accept Card Payments on Your Mobile Device

PROPAY
A TSYS® Company

Grow your business with a Bluetooth®-enabled card reader and mobile app from ProPay®.

As smartphones and mobile devices evolve and make changes to both hardware and software, you can continue to accept mobile payments with ease.

PROPAY'S MOBILE CHIP CARD READER

With ProPay's mobile chip card reader, no audio jack is required! Just connect with Bluetooth and you can accept both EMV® chip cards and traditional mag stripe cards. Our mobile reader offers the features you need for simple, secure card acceptance, including advanced encryption technology and over-the-air firmware updates.

PROPAY'S MOBILE CARD READER APP

The ProPay mobile card reader app opens the door to credit and debit card acceptance in real time, anywhere you have data coverage. You can even take card payments when you don't have data coverage. The app includes features like customer card-on-file storage and the ability to send email invoices.

Take a look at the other side for more exciting features of ProPay's mobile chip card reader and mobile card reader app!

Process Anytime, Anywhere with ProPay's Mobile Card Reader and App

ProPay's mobile card reader and app give you the opportunity to accept payments anytime, anywhere. **Here are some of the features that can help you grow your business:**

PROPAY'S MOBILE CHIP CARD READER

- Accept EMV chip card, NFC and mag stripe transactions, with digital wallets planned as future enhancement
- Advanced encryption technology provides even more secure processing
- Automatic, over-the-air firmware upgrades mean you always have the most updated processing power
- Compatible with most smartphones and tablets running iOS® and Android™ operating systems
- Card reader can be white-labeled with your logo/branding

PROPAY'S MOBILE PAYMENT APP

- Accept card payments in real time anywhere you have data coverage – or accept payments even when you don't have coverage
- Send text or email invoices to customers for paperless processing
- Store customers' cards-on-file for repeat purchases
- Transfer funds between ProPay accounts (ProPay-to-ProPay payments)
- Manage your mobile processing account
